Cuba shall be free, Mr. McKinley has said so and that settles it.

It is said of ex-Gov. Boies, of Iowa, that he has deserted the free silver cause.

Mayor Crenshaw, of Hopkinsville, is still hot after the Second District collectors.

Nick, clean cornfield, how delightful they are to look upon. Breckenridge county is full of them.

Now the speculators want to make a corner on the wheat. If the farmers will set wide they will not let their wheat go for nothing.

Times are getting better, we feel it and the country feels it, and the only thing to do now, is to go out and meet them and bid them welcome.

It seems that there is about to be a new party formed in Garrard county, Ky., called the Free Turnpike party. They have called a convention to nominate a candidate.

FARMERS are not talking politics, but giving their attention to tobacco, wheat, corn and things about the farm. They are deeply interested in farm work and the how of doing it.

CHARLES A. DANA, editor of the New York Sun, is reported as being critically ill. Mr. Dana is one of the greatest newspaper men in this country, and has been so recognized for many years.

Gov. BRADLEY seems to be having a tough time with the administration at Washington. He is quite sensible of the fact that he doesn't get the recognition due a Republican Governor of a great State.

In a general way there is an improvement in business. This must be apparent to any unprejudiced thinking mind. It is not from what the cause is, or from what source the things come, but it is for us to be honest about it.

Our Washington correspondent gives an outline of the President's policy in regard to Cuba. It is conservative and ought to meet the approval of all who want the right thing done in the settlement of a very complicated affair.

THERE are now on file, it is said, at the White House and the leading departments 105,100 written applications for office and that they are still coming in at the rate of 600 a day. What a mania we Americans have for office. It is said to be contemplative.

Here are our congratulations to our friend, Bob Robertson, who is bordering on the shady side of 60. It is a boy, a handsome, fine looking young man, born on the evening of June 24. A boy baby is the grandest addition ever made to a household.

There more we travel over Breckenridge county, the more in love we are with it and the prouder are we that she is our native county. Grand old Breckenridge, the best county of them all. Her flowers are the sweetest, her women the prettiest and best, and her men the grandest. Who would not live in old Breckenridge!

The Republican candidates are getting a move on them. They are sending a public gathering of any sort. All of them are making it a point now, to get out and hustle. All of this taking place so long before the November election is a pretty good sign that things are not so encouraging for them as they would like for them to be.

WHEREAS they can do it the Republicans always make a fusion with the Sound Money Democrats. It they can't capture the office alone they are always ready to make a deal. Yet they are always ready to condemn the Democrats for the very thing they have been practicing for years. The Republican pie hunters will bear watching.

"My wife" is eminently correct and the proper words to use and we are glad our Breckenridge correspondent has called our attention to them. There are lots of men in this world who would give all they possess and more too, just to have the pleasure of saying "my wife" once. A good wife is worth more than all the gold in silver in this world.

MR. C. W. BARNARD is mentioned as a probable candidate for Congress in the Second District. Mr. Barnard is just the kind of material that we want in Congress. He is a thorough business man, successful in his own private affairs, honest, conscientious, conservative and is thoroughly in touch with the people. The News doesn't know of any other Congressional aspirants in the State. We would like to see the House made up of just such men.

W. S. STERRETT HAS NO OPPONENTS. (From the Hancock Chronicle.)

W. S. Sterrett, Republican candidate for the State Senate from this district, returned Wednesday from Breckenridge county. Mr. Sterrett has no opposition for the nomination for the State Senate in all three of the counties pledged to him. He is said to be exceptionally strong with his party in Breckenridge county. Mr. Sterrett is peculiarly anxious regarding reputation with the people, as a holder of well known ability, and would probably make a stronger man than any party in the State. This paper does not agree with him politically, but if we are to be represented by a Republican, he has better be elected than any of them.

HARDINSBURG.

L. H. & W. TIME TABLE.

Passenger Daily ex. Hardinsburg, 7:37 a.m. OVENO. EARLY.

Passenger Daily ex. Hardinsburg, 11:55 p.m. OVENO. LATE.

Fresh, pure drugs at Witt's, Kentucky Photo Company continues.

Take your country produce to Witt's. Mrs. Anna Kinschloe has returned from Webster.

Prof. J. H. Logan, Cloverport, was in town Monday.

Miss Nora Henderson is visiting Mrs. Anna Kinschloe.

Judge Milton Board has been on the sick list several days.

Mr. George Hayes, of Henderson, is here visiting relatives.

Patent medicines of all kinds and at bottom prices at Witt's.

Miss Anna Mattingly was visiting Miss Lula Venable last week.

The Kentucky Photo Company will be in Hardinsburg about July 10.

Photos at 75c. per dozen or 50c. for one-half dozen by the Kentucky Photo Company.

I am still repairing watches, clocks, jewelry, silverware and spectacles.—T. C. Lewis.

The wind storm, last week, demolished of the shade trees in the court house yard.

Mr. Sallie Miller and her daughter, Ruth, will visit relatives in Owensboro this week.

Miss Nettie Bredlin, who has been visiting at Leitchfield, returned home last week.

Quite a number of young people attended Children's Day at Stephensport last Sunday.

Charles Hawkins and Miss Zula Johnson were married at the court house last week.

Misses Eva Herndon and Ellen McGhee were guests of Miss Eva Hensley last week.

Mr. C. M. Simpson, of Barboursville, was here last week, visiting Rev. S. F. Kelley's family.

B. F. Beard & Co. purchased a \$500 horse last week. This will be one of the town's best.

Floyd Mattingly was brought here one day last week, from Glendale, tried for larceny and sent to the asylum.

Mr. and Mrs. Eliza Meador had their baby, Samuel Bredlin, baptised out at Ephesus meeting last Sunday evening.

My shop is well equipped for all repairs of time keeping machinery. Every thing done first class. Come see me.—T. C. Lewis.

Johnston's Sales came over from Stephensport one day last week and qualified as administrators of the estate of Bayless Tucker, deceased.

Fraizer Horley was in town last week, the first time for several months. He has been ill with heart trouble and has not been able to be out for three months.

There is strong talk of building a new flour mill at or near the millinery business. He and his father were down there one day last week, and were very much pleased with the outlook.

The town of Irvington has not only been incorporated, but the County court has given them without dissent a voting place. This makes it very convenient for those people who heretofore had to go to Webster to vote.

Mr. Enoch Norton and Miss Kiffe, of Louisville, who were united in marriage at the bride's residence near this place, Monday, June 22, Rev. Geo. A. Allen, officiating. The wedding was quite a social affair, and a few special friends of the contracting parties were present. The bride was the recipient of many handsome and valuable presents.

The Darrett's creek kills this year. When these farmers give more of their attention to raising grain and stock, they will find that they can succeed better. For the last fifty years they have thought they could raise grain without raising hogs, but a mistake. We are glad they are giving more attention to grain than heretofore.

Rev. Galloway, pastor of the Methodist church at Danville, was here Monday, and presented a petition to the County court asking for a vote on the local option question in that district.

Mr. Galloway feels sure that will carry as they have never won a whiskey vote for many years. The vote will be taken on the 18th of September.

Mr. C. Allen was alive now, he could be in existence that which he most desired. He was a man of great ability and a big high point built at the Cool spring. He was a man of great ability and a big high point built at the Cool spring.

He could never get any one to take hold of it. He believed it to be one of the finest places for a home, and he was before which it undoubtedly is. Mr. Beard has spent considerable money to make it so, and the property made very valuable.

Twenty-five years ago Clifton Mill was one of the best business points in this county. That, however, was before the days of railroads and roller flouring mills here. There was a large crowd gathered in there last Friday at a sale and some of the old residents said it looked much like the old days.

They were blithely pretty thick in the shade close by and the old water mill was humming away, running on its low turn. They were blithely pretty thick in the shade close by and the old water mill was humming away, running on its low turn.

Henry Shacklett will be at home Friday from Leavenworth, Ind., to spend a few days.

Mr. Milton Reid and Mrs. C. G. Moreman had a full dinner of supper from New Albany and Louisville last Thursday, who came down with the excursion.

Let us hope that we, of this great nation on earth, may celebrate our "General Property" next fall as joyfully as the old country over the Queen's Jubilee.

Dew'errie! Dew'errie! Canning, preserving and jellifying. Post-office keepers will be glad to see you. Congressman I know what bills I put through, or try.

Bro. Phillip Jenkins delivered such an excellent sermon last Sunday morning. "The Righteousness of the Law." It called for much self examination, reflection and retrospection.

Let people talk. Don't worry. I tell you we are of no importance whatever unless some arrows are aimed at us. Only be such a character as to let them go clear over our heads, and fall on those that send them.

I have a long, interesting letter from Miss Lula Crutcher, who is at the Conservatory of Music, Cincinnati, and where she is doing fine work. Let always be a bright pupil and has the most musical touch I ever heard. She will be home soon.

John Fox, Jr., and James Lane Allen are just now giving special consideration to our own dear State, and the right kind of prominence. Both men and their works are full of poetry thought of a different nature and they are both deservedly popular.

Our young friend Stuart R. Young, well-known here "got there" on the Democratic ticket for City Treasurer, of Louisville. My cousin, Geo. Alexander, made it for Senator in his district. George has done some good work for his party and deserved recognition.

Mrs. R. H. Brashear and children, of Owensboro, are with her parents, Mr. and Mrs. W. P. for her usual summer visit. We are very glad to welcome Miss Alice, she holds a warm place in many of our hearts. She understands keeping young and handsome.

Sensor Walcott might as well sail for home till after that last day has passed. The currency question is "no go" till the Commissioners are satisfied how the tariff will affect their country across the big pond. Our commissioners cannot accomplish this till the bill is out of the way.

It is always with the feeling of sadness I read a great, colorful intellect died. Editor Charles A. Dana, of the New York Sun, reported critically ill. For his long life he has given to the world more widely quoted editorials than any writer in the country and his loss will be great to the people.

We are glad to see Mr. Charles Bryant's spirit of enterprise. He is having the room next to Nevitt & Gough nicely fixed for the post-free department. He will have new desks and many other lock boxes, a great convenience to business men. Mr. Bryant appreciates his appointment.

Newport society has decided that the day of the week, Wednesday, shall be the high school position is that she's too stout. Mrs. Oliver R. Brice failed to have absolute queenship because of

avoiding. Mrs. Potter Palmer is the queenly woman and will be the heroine of Newport.

Sister Pate and Miss Daisy McIntyre are back from Haverhill, but I have not seen them for report. I am indebted to Bro. Pate for a most excellent mass journal, with poetry and charming literature besides. "The good, the true, the beautiful" Would our world had nothing else.

The Medical Association last Thursday had a full dinner of supper from New Albany and Louisville last Thursday, who came down with the excursion.

Let us hope that we, of this great nation on earth, may celebrate our "General Property" next fall as joyfully as the old country over the Queen's Jubilee.

BRECKENRIDGE NEWS.

WEDNESDAY, JUNE 20, 1897.

FARM-GARDE.

THE TUB SILO.

It Does Good Work and is Increasing in Popularity Everywhere.

The farmers who are using the tub silo are in every case, so far as I can learn, well pleased with them. They can be built at half the expense of the square or rectangular silo, and they command themselves in every way to the small farmer and dairyman. They can be constructed of 3 by 6 scantling, but they should be belined, not grooved.

Natural Cures.

Now that the cold "heat" of the season has passed, it is again the time to save the merriment in nothing more than a drench, a mixture either rhubarb or a Tiletan antacid, while the colic, the phlegm and the roe appear to be pure imagination.

But in the Elizabethan age—ago—when the dodo had but recently been discovered—then, and since, the other mythical creatures were, if not living, at all events actual realities to the ordinary public, and an abundance of them in the works of the great dramatist and other contemporary writers. We must, for instance, in the "Water of the Tale" the line, "Make no slighted like the basilisk," and in "The Tempest," "Now I will believe that there are unicorns." But not only was more or less of credulity given to the existence of these and such like fabulous monsters, but a web of mystic lore encircled the most common and best known of beasts, birds and fishes. Who, for instance, is forgetful of the popular superstitions connected with the salamander, the newt and the blue-tongued, and who fails to remember White's account of the "abracad" at Selborne? And if such superstitions still survive among uneducated peasants of the present day may be ascertained that two centuries ago they were fully believed by the higher classes.—Nature.

Coffee as a Disinfectant.

The use of coffee as a disinfectant is generally known, but it is doubtful if the majority of people are aware of its true value in this direction. They probably know that it is handy and harmless, but besides these qualities it is really one of the most powerful and effective agents known, as has been shown by repeated experiments. In one case a quantity of meat was placed in a close room and allowed to decompose. A chafing dish was then introduced and 500 grams of coffee were thrown on the fire. In a few minutes the room had been entirely disinfected. In another room the fumes of sulphurated hydrogen and ammonia were developed, and the smell—which of course is really decomposed and not merely overpowered by the fumes of coffee, it is stated that the first vapors of the coffee are not smelled at all and are therefore completely absorbed, while the other smells gradually diminish as the fumigation continues. The merest "pinch" of coffee is usually sufficient to cleanse a sick room, even in aggravated cases. The best way to employ it is to freshly pour the coffee in a mortar, if no mill is at hand, and sprinkle it on a red-hot iron surface.—New York Ledger.

Earth Movements.

Professor Joseph Le Conte recently read a paper before the Geological Society of America, from which we learn that there are two primary and permanent kinds of movements of the earth's crust—namely, those which are continental surfaces and oceanic basins, and those which by interior contraction, the surface of the earth is raised, and the interior is lowered. These two are determined, the one by equal radial contraction, the other by unequal contraction, which is, in fact, contraction of the interior more than the exterior. There are also two secondary kinds of earth movements, which modify the effects of the other two and confuse our understanding of them. These are, first, the effects of volcanic eruptions, and secondly, the effects of earthquakes, affecting large areas, and isostatic movements, or gravitational readjustments, by gradual subsidence. In the minds of some writers oscillatory movements have masked and obscured the effects of the other two, and have been mistaken for them. It is believed that to make secure progress we must keep these several kinds of movements distinct in our minds.—San Francisco Chronicle.

For Success In War.

For success in war the indispensable complement of intellectual grasp and logical power is the power of the will. It is a man to trust the inner light, a power which dominates hesitation and sustains action in the most tremendous emergencies and which, from the formidable character of the difficulties it is called to confront, is the most conspicuously prominent as in those who are called to rank among great captains. The man who is not so equipped is not a man of war. It is the will, with the exceptional opportunities afforded him constituted his good fortune and his greatness.—Captain Mahan's "Life of Nelson."

A London Incident.

Landlords in poor districts in London are not allowed to take the tools of a defaulting tenant for rent. Yet a woman complained to the magistrate in west London that her landlord had seized her sewing machine for rent, and so had deprived her of the means of livelihood. The machine did not belong to her. She had it on the hire system. The magistrate told her that she could not recover it, and she would not only have to lose the machine, but also to pay its value to the firm from which she hired it.—Woman's Journal.

Hide your pocket book until Rice & Bland, July 21.

Owen Whitehouse is at home sick. He has symptoms of heart trouble.

Miss Melvina Tate was visiting her cousin, Miss Doie Bates, last week.

B. F. Rank is doing some plastering for James Harris, near Hardinburg, this week.

Road working has commenced and the subject of road tax is thoroughly discussed today.

Miss Ida Frank went to Tabor Saturday, to visit relatives. She will stay till after the picnic.

Rev. Owen Young returned from Rockport Friday, where he has been holding a series of meetings.

C. B. Bates preached at Tabor's school-house Sunday evening, to a large audience. Mr. Bates is an excellent talker.

Miss Laura Bates returned home Sunday, after a visit of two weeks with relatives at Tar Fork. Her uncle, B. H. Wilson, accompanied her home.

V. B. Burton, candidate for Sheriff, says all the voters that have died and all that have been sentenced to the penitentiary in this county since the primary election, were all staunch Republicans and were all soul and body Barton men.

DID YOU KNOW

That Balltown was not incorporated? That Jim Perkins had made a hammock?

That Miss Ada thinks her fellow real Frank?

That C. B. Pate is a handling merchant?

That James Tate is a candidate for matrimony?

That Frank Tabling says Grace to his children, and we know.

That Fred Rank is g-t-ing tired of a bachelor's life?

That Miss Alice thinks the preachers are all handsome?

That Miss Bonnie desires to be Tate as well as landlady.

That Miss Sallie, of Beechfork, likes Rice without sugar?

That Miss Sallie, of Irvington, admires a Whitehouse very much?

That your uncle is looking for a rich lady in the last stage of consumption, who wants to marry?

Some for ten, some for twenty and some for thirty years have suffered from piles and then have been quickly and permanently cured by using DeWitt's Little Blue Pills, the great remedy for all ailments of the bowels and skin diseases.—Short & Haynes.

Was Growing Worse

Liver and Stomach Troubles—Too Weak to Work—Now Able to Do All Her Household.

"I was under the care of a physician for two years and he was treating me for stomach and liver troubles and female difficulties, but I only grew worse under his treatment. I was so weak that I could hardly do any work. I was at last induced to try Hood's Sarsaparilla and Hood's Pills. These medicines have done me so much good that I now weigh 112 pounds and am able to do all my household work. I firmly believe I should have been in my grave today if it had not been for Hood's Sarsaparilla. My little girl was afflicted with the same troubles. I gave her Hood's Sarsaparilla and it has relieved her." Mrs. E. S. HARRIS, 700 University Avenue, Knoxville, Tennessee.

Colin's Year of Lawyers. In the columns of the New York Gazette of Sept. 8, 1789, there was a paragraph lauding the increase of lawyers as threatening to the future prosperity of the community and degrading to freedom. "An honest trade in former days," said the writer, "was all that people of common ability and education were ambitious of, but now no profession is counted but the lawyer and the merchant. The lawyers are now creeping into every part of importance and thrusting themselves upon us wherever there is a vacancy. Our congress, our assembly, are crowded with them, and even in our most important commercial transactions there are five lawyers to one merchant."

There is a cry in the vicinity of Paducah which is looked upon as having been a contemporary of Julius Caesar, and, according to another and more plausible legend, it was against the trunk of this tree that Francis I, seeing "all lost save honor," endeavored to break his sword.
